## Vol. 65 No. 3332

---

## General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

## Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

## Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

## Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

## Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

## Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Magnetic, optical and electronic information carriers namely foil strips, foil sheets, stickers, labels, vignettes, bands, coins, discs, cards and plates all made of paper, metal and plastic and all featuring one or more of the following encoding means including electronic encoding, magnetic encoding, opto-electronic encoding, optical encoding, optical structures, optical colour structures, optical light reflecting structures, optical filter structures, optical diffraction structures, holographic structures, optical interference structures, Moire structures, optical lens structures, optical microlens fields, for use as identification means, authentication means, money replacement means and for use in identification means, authentication means, money replacement means, namely in identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; electronic data carriers namely tokens, cards, discs, tags, bands, foils, made of paper, plastic and metal for use as identification means, authentication means, money replacement means namely as identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; magnetic, optical, electric and electronic parts and components, namely foil sheetings, foil bands, foil sheets, stickers, labels, bands, threads, discs, cards and plates for storage, processing and display of information, personal identification information and authentication information relating to the manufacturer and distributor of products and to the issuer of documents to prevent forgery and tampering; magnetic, optical and electrically conductive devices namely foil sheetings, foil bands, foil sheets, stickers, labels, bands, threads, discs, cards and plates for the storage, processing and display of information and personal identification information and authentication information relating to the manufacturer and distributor of products and to the issuer of documents to prevent forgery and tampering; electric, electronic, optical, opto-electronic components and circuits and combinations thereof namely electrical conductive elements and circuits, electric, optical and electronic switches, sensors, integrated circuits, capacitors, inductors, resistors, diodes, memory chips, data storage chips, transponder chips, electric and electronic and optical data carriers, solar cells; optical diffraction structures and holographic structures and combinations thereof namely holographic films, films and foils with holographic structures, films and foils with optical diffraction structures, films and foils with optical

structures, films and foils with optical filter structures, films and foils with electronic encoding, films and foils with magnetic encoding, films and foils with opto-electronic encoding, films and foils with optical encoding, for use in identification means, authentication means, money replacement means, namely in identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; optical security features namely optical structures and optically variable surfaces for use in foils and semi-finished plastic products for use in the manufacture of identification means, authentication means, money replacement means, namely of identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; antennae for sending and receiving electronic signals, for integration into foils and films, for integration into computers, for integration into products and its packaging, for integration into labels and tags, for integration into textiles, RFID antennae, NFC antennae, WIFI antennae, radio antennae, short-range radio frequency antennae; optical displaying devices, namely, liquid crystal displays (LCD-displays), light emitting diode displays (LED-displays), and displays with organic light emitting diodes (OLED-displays); all the aforementioned goods also codable as well as provided with optically active interference layers, polarisation layers, with liquid crystal layers, with optical structures, optical color structures, optical light reflecting structures, optical filter structures, optical diffraction structures, holographic structures, optical interference structures, Moire structures, optical lens structures, optical microlens fields and optical concave mirror structures; security threads (in the form of narrow stamping foil bands, transfer foil bands or laminating foil bands); embossing stamps; stamping dies/matrices as machine parts.

(2) Stickers, labels, stamps, vignettes, packaging covers and packaging sheaths all made of paper, metal and plastic, paper bands for paper, stationery and for household purposes, sheets, covers, cards and sheaths all made of paper, metal and plastic and all featuring one or more of the following encoding means, electronic encoding, magnetic encoding, opto-electronic encoding, optical encoding, optical structures, optical color structures, optical filter structures, optical light reflecting structures, optical diffraction structures, holographic structures, optical interference structures, Moire structures, optical lens structures, optical microlens fields, optical concave mirror structures; packaging materials made of paper and plastic, for use as identification means, authentication means, money replacement means, and for use in identification means, authentication means, money replacement means, namely in identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; stamping foils, in particular hot stamping foils and cold stamping foils, also for packaging purposes; plastic laminate films and foils for packaging and plastic laminate films for use in the manufacture of identification means, authentication means, money replacement means, namely of identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; stickers, stamping foils, transfer foils and laminating foils as well as foil strips; labels, self-adhesive labels (not of textiles) and vignettes, all made of paper; labels, self-adhesive labels (not of textiles), all made of plastic; non-electronic data carriers namely stamping foils, laminating foils, tokens, cards, discs, tags, bands, sheets and foils made of paper and plastic for identification means, authentication means and money replacement means, namely for identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards,

membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; packaging material of paper and plastic, namely sheaths, bags and foils; matrices, printers' type, printing blocks.

(3) Covers and sheaths (not for packaging purposes), for manufacturing purposes, namely inherently stable sheaths of plastic (not for packaging purposes) for use in the manufacturing of identification means, authentication means and money replacement means, namely of identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; stamping foils, hot stamping foils, cold stamping foils and laminating foils, not for packaging; stamping foil bands, hot stamping foil bands, cold stamping foil bands, laminating foil bands, not for packaging; plastic laminate films (not for packaging purposes) featuring one or more of the following, encoding means, electronic encoding, magnetic encoding, opto-electronic encoding, optical encoding, optical structures, optical color structures, optical filter structures, optical light reflecting structures, optical diffraction structures, holographic structures, optical interference structures, Moire structures, optical lens structures, optical microlens fields, and optical concave mirror structures for use in the manufacturing of identification means, authentication means and money replacement means, namely of identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; stamping foils, transfer foils and laminating foils as well as foil strips; non-electronic data carriers namely stamping foils, laminating foils, transfer foils, tokens, cards, discs, tags, bands, sheets all made of paper, metal and plastic and sheets and foils made of plastic for use in identification means, authentication means and money replacement means, namely in identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; semi-finished goods, namely self-adhesive foils, plastic laminate films, laminating foils, stamping foils for use in identification means, authentication means and money replacement means, namely in identity documents, government documents, banknotes, bills, credit cards, magnetic cards, identification cards, membership cards, drivers licenses, access cards, value cards, charge cards, prepaid cards, bonds, securities, currency, travelers cheques, cyber coins, stock certificates, cheques and transit tickets; security threads primarily of plastics (in form of narrow stamping foil bands, transfer foil bands or laminating foil bands)

## SERVICES

Technological consultancy with respect to the possibilities of use of identification means, authentication means and money replacement means, particularly of data carriers in the form of foil strips, foil sheets, foil sheetings and foil bands, stickers, labels, threads, plates, tokens, cards, discs, tags, bands, as well as sheets and foils of plastic, paper or metal; technological consultancy with respect to the possibilities of use and application of security elements in the form of foil strips, foil sheets, foil sheetings and foil bands, stickers, labels, threads, tokens, bands, sheets and foils of plastic, paper or metal on identification documents or banknotes, bills or payment means; technological consultancy with respect to the possibilities of increasing the security against forgery by using and applying of security elements in the form of foil strips, foil sheets, foil sheetings and foil bands, stickers, labels, threads, tokens, bands, sheets and foils of plastic, paper or metal on identification documents or banknotes, bills or payment means; technical consulting in the fields of plastic, paper and foil processing namely consulting about the transfer of patterns, decors, structures and/or functional surface structures onto goods, onto packaging, onto documents and other paper goods, onto printed matter and onto banknotes or identification documents

### Class 06

(1) Fittings of metal for compressed air ducts for heating, steam generating, cooking, refrigerating, drying, ventilation apparatus, air conditioning apparatus as well as for sanitary installations, metal water pipes for central heating installations, solar plants and heat exchangers, building materials of metal, namely, panels, doors, handles for doors and furniture, and valves, composite panels, composed primarily of metal, material of metal for railway construction, non-electric cables and wires of common metals, ironmongery and locksmithing articles of metal, namely, hinges, box staples for construction or industrial use, rivets, fastening angles in the nature of steel angles for use in building construction, metal bump keys for locksmithing, goods of metal, namely, screws, nuts, bolts, shims, iron strip, pegs of metal, valves of metal for heating bodies, not being parts of machines, pipe work of metal, namely, bypasses, copper pipes, steel pipes, stainless steel pipes, pipe collars, pipe connectors, pipe couplings of metal or mainly of metal, press fittings, compression sets being connection adaptors for metal fittings, being joints, nuts, ball-valves, and seal, welding and soldering ends, metal expanding sleeves for affixing screws, metal pipes, penstock pipes of metal, gutter pipes of metal and branching pipes of metal, ducts of metal for ventilating and air conditioning installations, stretchers for metal bands, namely, tension links of metal, steel angles for use in building construction, supporting frames in the nature of frames of metal for building, manifolds of metal for pipelines, water pipes of metal, water pipe valves of metal, manhole covers of metal, trap doors of metal, valves of metal not being parts of machines, baseboards of metal or mainly of metal, sealing caps and junction fittings of metal or mainly of metal, in particular adapting fittings of metal, parts and fittings of metal or mainly of metal for the aforesaid goods.

### Class 09

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, voltage regulators and electrical controllers, control units for

floor heating units, electronic thermostatic heads; electric apparatus for commutation, namely, commutators, electric couplings and electric loss indicators, namely, electronic indicator panels; detectors, namely, carbon dioxide detectors, temperature detectors, gas detectors, noise detectors; electronic notice boards; measuring apparatus, namely, heat meters, volt meters, ampere meters, electricity meters, laser distance meters, counting apparatus, namely, money counting and sorting machines; apparatus for measuring and indicating temperature, namely, thermometers; water level measuring and indicating apparatus, namely, level indicators; pressure measuring and indicating apparatus, namely, pressure gauges, measurement computers; remote control apparatus, namely, remote controls for electronic thermostatic heads, for district heating substation, for boilers, radios, televisions, stereos, electric and electronic regulating apparatus and instruments, namely, room temperature controllers, thermostats, aforesaid goods also electronically operated; pressure indicating plugs for valves; electric telerupters, electric cables, solenoid valves, diaphragms, namely, calibrating rings for calibrating optical emission spectrometers, luminous signs, pressure gauges, commutators, electronic switches for timers, signal bells, sirens, variometers for the aforesaid goods; thermostat valves; blank magnetic data carriers; dosage dispensers, remote control apparatus, namely, remote controls for radios, televisions, stereos, boilers, electronic thermostatic heads; operating apparatus and installations for technical building equipment, namely, building management systems comprising sensors for wireless temperature measurement and flow measurement; hydrometers, boiler control instruments, measuring apparatus for temperature, pressure, and flow rates, namely, sensors for determining temperature, temperature gauges, temperature probes, pressure gauges, pressure sensors, flow meters and measuring valves; apparatus and instruments for physics, namely, for measuring voltage, current, weight, temperature and pressure, namely, voltmeters, ammeters, industrial weigh scales, fluid thermometers, fluid pressure measuring apparatus; smoke detectors, key phone switch boards, electric apparatus for wireless commutation, namely, wireless thermostats, wireless receivers, wireless heat meters, wireless water meters; sprinkler systems for fire protection; thermometers, not for medical purposes, namely, fluid thermometer, electrical pressure indicator plugs for valves, heat regulating apparatus in the nature of pressure regulators and flow controls; water level indicators; electronic regulating systems comprising control units for regulating start-up electrical motors and voltage regulators for electric power; computer programs for use in database management, use as a spread sheet, word processing; computer software for use in database management, use as a spread sheet, word processing; measuring and controlling devices for technology for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduit apparatus and installations, as well as for sanitary installations, remote heat and remote refrigerating installations and solar installations, floor heating installations, wall heating installations and heating boilers, namely, thermostats, thermostatic heads, control stations, hydrosensor, room temperature controller for radiator and oor connection, regulating valves, double regulating valves, differential pressure controllers, flow controllers, electromechanical room temperature controllers, room temperature computers, electronic heating controllers, microprocessor controllers, expansion modules for microprocessor controller, temperature limiters, hydraulic interface units, accessories for hydraulic interface units, floor heating controls, control stations for oor heating control, control stations for radiator heating, control stations for oor heating control and additional radiators, control stations for underfloor heating, control stations for fan coil units.

## Class 11

(3) Heating installations, namely domestic hot water boilers, hot water tanks and showers, radiators, solid fuel boilers, gas burners, oil burners, pressure jet burners, rotary cup burner, dual fuel burners, steam generating installations, direct and indirect heaters, apparatus for cooking,

namely cooktops, electric cooking stoves and ovens, power-heat-coupling installations, namely heat accumulators, steam accumulators, heating boilers; steam generating installations; apparatus for cooking, namely, cooktops, electric cooking stoves and ovens; drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems, namely, ventilating exhaust fans; air conditioning apparatus and installations for buildings; sanitary installations in the nature of steam rooms; solar thermal-based power plants, in particular remote heating and refrigerating installations; heating apparatus, namely, wall, ceiling and floor heating installations activated through concrete core heat accumulators; coils as parts of cooling installations for surfaces; power-heat-coupling installations, namely, heat accumulators, steam accumulators, heating boilers; biomass heating installations, namely, biomass burners being part of heating systems for residential and commercial buildings; valves as well as activating and regulating fittings sold as component parts for the aforesaid goods, in particular for heating and refrigerating apparatus and installations therefor, namely, steam and gas valves and regulators, recoil check valves, thermostatic valves, air valves; regulating and safety fittings for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduits apparatus and installations as well as for sanitary apparatus and installations as well as for remote heating and remote refrigerating installations, for radiators and residual water conduits, for central heating installations, solar plants, heat exchangers, steam, compressed air, water and gas pipes, namely, steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes; expansion tanks for central heating installations, namely, hot water tanks; burners in the nature of gas burners, biomass burners being part of heating systems for residential and commercial buildings; pressure hot water tanks, showers; plumbing fittings of non-metal for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduit apparatus and installations, as well as for sanitary installations and for central heating installations, namely, 90 degree elbows, 45 degree elbows, and male/female elbows, tee fittings, red tee fittings, cross fittings, union fittings, hex head caps, reducing fittings, Y-way fittings, reducing nipples, square and hex plug fittings, lock nuts, hose nipple fittings, full couplings, half couplings, outlet tee fittings, barrel nipples, parallel nipples, welding nipples, round caps; mixing nozzles for sanitary and bathroom installations as well as component fittings for mixing nozzles for sanitary installations, namely, shower mixing valves, bath installations, bathroom fixtures, nozzles for sprinkler hose; chimney flues for heating boilers; gas-fired boilers, water heaters, heating boilers, heating elements and radiators, air filters for air conditioning units for buildings; chimney dampers, namely, control devices used in air ducts to regulate the flow of air; regulating and safety accessories for gas installations, gas pipes, water installations as well as for water conduits, namely, steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes; boiler pipes for heating installations, coils as part of heating installations, taps for pipes; fans for air-conditioning apparatus, thermal solar collectors for heating, heat pumps, heat accumulators, heat regenerators, heating boilers, heat exchangers not being parts of machines, water supply installations, namely, sinks, taps; recoil check valves being parts of heating installations, thermostatic valves being parts of heating installations, radiator thermostatic heads being parts of heating installations; fittings for drinking water installations, namely, circuit control and regulating valves and backflow preventers for water supply installations; pressure reducers as component parts of heating installations; water filters; automatic temperature regulators being thermostatic valves for central heating radiators; air valves for steam heating installations; friction lighters for igniting gas; expansion tanks for central heating installations, namely, heating medium and domestic hot water expansion tanks; wash-hand basins; radiator caps, thermostatic radiator valves, radiator caps, humidifiers for central heating radiators; valves and activating and regulating fittings sold as component parts for the aforesaid goods, namely for heating and refrigerating apparatus and installations therefore, namely steam and gas valves and regulators, regulating and safety fittings for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduits apparatus and installations as well as for sanitary apparatus and installations as well as for remote heating and remote refrigerating installations, for radiators and residual water conduits, for central heating installations, solar plants, heat exchangers, steam, compressed air, water and gas pipes, namely steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes, plumbing fittings of metal for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduit apparatus and installations, as well as for sanitary installations and for central heating installations, namely, 90 deg elbows, tee fittings, red tee fittings, male/female elbows, cross fittings, 45 deg elbows, union fittings, hex head caps, reducing fittings, Y-way fittings, reducing nipples, square and hex plug fittings, lock nuts, hose nipple fittings, full couplings, half couplings, outlet tee fittings, barrel nipples, parallel nipples, welding nipples, round caps, sanitary taps and shower mixing valves for sanitary and bathroom installations as well as component fittings for sanitary taps and shower mixing valves, chimney flues for heating boilers, chimney dampers, namely control devices used in air ducts to regulate the flow of air, regulating and safety accessories for gas installations, gas pipes, water installations as well as for water conduits, namely steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes, boiler pipes for heating installations, taps for pipes.

### Class 17

(4) Semi-processed plastic in the form of films, sheets, tubes, bars, granulates, or rods; sealing, caulking and insulating material, namely, insulating shells, heat insulating plates, insulation strips, insulating discs, insulating nipples, pipe insulting rods and elbows, insulating washers and sleeves; non-metal hoses and flexible pipes, namely, plastic composite pipes, multilayer pipe for complex installation tasks in heating, air conditioning and plumbing installations, pipes with heat-insulation from LDPE foam, plastic composite pipe for natural gas; non-metal junctions for pipes; semi-processed foams in the nature of filtering materials in the water filter industry; insulating felt for use in the fields of thermal and fire protection and sound control; pipe gaskets; non-metal pipe muffs for use with plastic pipes; non-metal gaskets, namely, water-tight rings for plumbing pipes; non-metal weather strips for buildings; electric, thermal and acoustic insulators; slag wool for use as a building insulator for retaining heat; building and pipe insulation, namely, non-metal studded panels for insulating purposes; reinforcing materials of plastic for pipes, reinforcing materials of fibre-reinforced plastic for pipes, non-metal pipe muffs, for use with plastic pipes; capsules for pipes for heating, steam, generating, cooking, refrigerating, ventilating, air conditioning and for sanitary installations and remote heating and remote refrigerating technical installations; non-metal branching pipes and junctions; flexible plumbing pipes and pipe connectors of plastics; Plastic composite tubes, capillary tubes of plastic, protective tube.

### Class 19

(5) Building materials not of metal, namely, wall, hardwood, decking, wood, and particle boards, cove bases, not of metal; plaster fiberboards and plastic boards for use in construction; drain pipes not of metal, water-pipe valves not of metal or plastic; building materials as elements for building manholes in the nature of concrete drainage structures, namely, storm manholes; non-metal manhole covers, non-metal penstock pipes.

**Class 06**
(1) Fittings of metal for compressed air ducts for heating, steam generating, cooking, refrigerating, drying, ventilation apparatus, air conditioning apparatus as well as for sanitary installations, metal water pipes for central heating installations, solar plants and heat exchangers, building materials of metal, namely, panels, doors, handles for doors and furniture, and valves, composite panels, composed primarily of metal, material of metal for railway construction, non-electric cables and wires of common metals, ironmongery and locksmithing articles of metal, namely, hinges, box staples for construction or industrial use, rivets, fastening angles in the nature of steel angles for use in building construction, metal bump keys for locksmithing, goods of metal, namely, screws, nuts, bolts, shims, iron strip, pegs of metal, valves of metal for heating bodies, not being parts of machines, pipe work of metal, namely, bypasses, copper pipes, steel pipes, stainless steel pipes, pipe collars, pipe connectors, pipe couplings of metal or mainly of metal, press fittings, compression sets being connection adaptors for metal fittings, being joints, nuts, ball-valves, and seal, welding and soldering ends, metal expanding sleeves for affixing screws, metal pipes,

penstock pipes of metal, gutter pipes of metal and branching pipes of metal, ducts of metal for ventilating and air conditioning installations, stretchers for metal bands, namely, tension links of metal, steel angles for use in building construction, supporting frames in the nature of frames of metal for building, manifolds of metal for pipelines, water pipes of metal, water pipe valves of metal, manhole covers of metal, trap doors of metal, valves of metal not being parts of machines, baseboards of metal or mainly of metal, sealing caps and junction fittings of metal or mainly of metal, in particular adapting fittings of metal, parts and fittings of metal or mainly of metal for the aforesaid goods.

**Class 09**

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, voltage regulators and electrical controllers, control units for floor heating units, electronic thermostatic heads; electric apparatus for commutation, namely, commutators, electric couplings and electric loss indicators, namely, electronic indicator panels; detectors, namely, carbon dioxide detectors, temperature detectors, gas detectors, noise detectors; electronic notice boards; measuring apparatus, namely, heat meters, volt meters, ampere meters, electricity meters, laser distance meters, counting apparatus, namely, money counting and sorting machines; apparatus for measuring and indicating temperature, namely, thermometers; water level measuring and indicating apparatus, namely, level indicators; pressure measuring and indicating apparatus, namely, pressure gauges, measurement computers; remote control apparatus, namely, remote controls for electronic thermostatic heads, for district heating substation, for boilers, radios, televisions, stereos, electric and electronic regulating apparatus and instruments, namely, room temperature controllers, thermostats, aforesaid goods also electronically operated; pressure indicating plugs for valves; electric telerupters, electric cables, solenoid valves, diaphragms, namely, calibrating rings for calibrating optical emission spectrometers, luminous signs, pressure gauges, commutators, electronic switches for timers, signal bells, sirens, variometers for the aforesaid goods; thermostat valves; blank magnetic data carriers; dosage dispensers, remote control apparatus, namely, remote controls for radios, televisions, stereos, boilers, electronic thermostatic heads; operating apparatus and installations for technical building equipment, namely, building management systems comprising sensors for wireless temperature measurement and flow measurement; hydrometers, boiler control instruments, measuring apparatus for temperature, pressure, and flow rates, namely, sensors for determining temperature, temperature gauges, temperature probes, pressure gauges, pressure sensors, flow meters and measuring valves; apparatus and instruments for physics, namely, for measuring voltage, current, weight, temperature and pressure, namely, voltmeters, ammeters, industrial weigh scales, fluid thermometers, fluid pressure measuring apparatus; smoke detectors, key phone switch boards, electric apparatus for wireless commutation, namely, wireless thermostats, wireless receivers, wireless heat meters, wireless water meters; sprinkler systems for fire protection; thermometers, not for medical purposes, namely, fluid thermometer, electrical pressure indicator plugs for valves, heat regulating apparatus in the nature of pressure regulators and flow controls; water level indicators; electronic regulating systems comprising control units for regulating start-up electrical motors and voltage regulators for electric power; computer programs for use in database management, use as a spread sheet, word processing; computer software for use in database management, use as a spread sheet, word processing; measuring and controlling devices for technology for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduit apparatus and installations, as well as for sanitary installations, remote heat and remote refrigerating installations and solar installations, floor heating installations, wall heating installations and heating boilers, namely, thermostats, thermostatic heads, control stations, hydrosensor, room temperature controller for radiator and oor connection, regulating

valves, double regulating valves, differential pressure controllers, flow controllers, electromechanical room temperature controllers, room temperature computers, electronic heating controllers, microprocessor controllers, expansion modules for microprocessor controller, temperature limiters, hydraulic interface units, accessories for hydraulic interface units, floor heating controls, control stations for oor heating control, control stations for radiator heating, control stations for oor heating control and additional radiators, control stations for underfloor heating, control stations for fan coil units.

## Class 11

(3) Heating installations, namely domestic hot water boilers, hot water tanks and showers, radiators, solid fuel boilers, gas burners, oil burners, pressure jet burners, rotary cup burner, dual fuel burners, steam generating installations, direct and indirect heaters, apparatus for cooking, namely cooktops, electric cooking stoves and ovens, power-heat-coupling installations, namely heat accumulators, steam accumulators, heating boilers; steam generating installations; apparatus for cooking, namely, cooktops, electric cooking stoves and ovens; drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems, namely, ventilating exhaust fans; air conditioning apparatus and installations for buildings; sanitary installations in the nature of steam rooms; solar thermal-based power plants, in particular remote heating and refrigerating installations; heating apparatus, namely, wall, ceiling and floor heating installations activated through concrete core heat accumulators; coils as parts of cooling installations for surfaces; power-heat-coupling installations, namely, heat accumulators, steam accumulators, heating boilers; biomass heating installations, namely, biomass burners being part of heating systems for residential and commercial buildings; valves as well as activating and regulating fittings sold as component parts for the aforesaid goods, in particular for heating and refrigerating apparatus and installations therefor, namely, steam and gas valves and regulators, recoil check valves, thermostatic valves, air valves; regulating and safety fittings for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduits apparatus and installations as well as for sanitary apparatus and installations as well as for remote heating and remote refrigerating installations, for radiators and residual water conduits, for central heating installations, solar plants, heat exchangers, steam, compressed air, water and gas pipes, namely, steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes; expansion tanks for central heating installations, namely, hot water tanks; burners in the nature of gas burners, biomass burners being part of heating systems for residential and commercial buildings; pressure hot water tanks, showers; plumbing fittings of non-metal for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduit apparatus and installations, as well as for sanitary installations and for central heating installations, namely, 90 degree elbows, 45 degree elbows, and male/female elbows, tee fittings, red tee fittings, cross fittings, union fittings, hex head caps, reducing fittings, Y-way fittings, reducing nipples, square and hex plug fittings, lock nuts, hose nipple fittings, full couplings, half couplings, outlet tee fittings, barrel nipples, parallel nipples, welding nipples, round caps; mixing nozzles for sanitary and bathroom installations as well as component fittings for mixing nozzles for sanitary installations, namely, shower mixing valves, bath installations, bathroom fixtures, nozzles for sprinkler hose; chimney flues for heating boilers; gas-fired boilers, water heaters, heating boilers, heating elements and radiators, air filters for air conditioning units for buildings; chimney dampers, namely, control devices used in air ducts to regulate the flow of air; regulating and safety accessories for gas installations, gas pipes, water installations as well as for water conduits, namely, steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes; boiler pipes for heating installations, coils as part of heating installations, taps for pipes; fans for air-conditioning apparatus, thermal solar

collectors for heating, heat pumps, heat accumulators, heat regenerators, heating boilers, heat exchangers not being parts of machines, water supply installations, namely, sinks, taps; recoil check valves being parts of heating installations, thermostatic valves being parts of heating installations, radiator thermostatic heads being parts of heating installations; fittings for drinking water installations, namely, circuit control and regulating valves and backflow preventers for water supply installations; pressure reducers as component parts of heating installations; water filters; automatic temperature regulators being thermostatic valves for central heating radiators; air valves for steam heating installations; friction lighters for igniting gas; expansion tanks for central heating installations, namely, heating medium and domestic hot water expansion tanks; wash-hand basins; radiator caps, thermostatic radiator valves, radiator caps, humidifiers for central heating radiators; valves and activating and regulating fittings sold as component parts for the aforesaid goods, namely for heating and refrigerating apparatus and installations therefore, namely steam and gas valves and regulators, regulating and safety fittings for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduits apparatus and installations as well as for sanitary apparatus and installations as well as for remote heating and remote refrigerating installations, for radiators and residual water conduits, for central heating installations, solar plants, heat exchangers, steam, compressed air, water and gas pipes, namely steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes, plumbing fittings of metal for heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water conduit apparatus and installations, as well as for sanitary installations and for central heating installations, namely, 90 deg elbows, tee fittings, red tee fittings, male/female elbows, cross fittings, 45 deg elbows, union fittings, hex head caps, reducing fittings, Y-way fittings, reducing nipples, square and hex plug fittings, lock nuts, hose nipple fittings, full couplings, half couplings, outlet tee fittings, barrel nipples, parallel nipples, welding nipples, round caps, sanitary taps and shower mixing valves for sanitary and bathroom installations as well as component fittings for sanitary taps and shower mixing valves, chimney flues for heating boilers, chimney dampers, namely control devices used in air ducts to regulate the flow of air, regulating and safety accessories for gas installations, gas pipes, water installations as well as for water conduits, namely steam and gas valves and regulators, flashback arrestors, pressure reducing valves, reverse flow check valves for water and gas pipes, boiler pipes for heating installations, taps for pipes.

Class 17

(4) Semi-processed plastic in the form of films, sheets, tubes, bars, granulates, or rods; sealing, caulking and insulating material, namely, insulating shells, heat insulating plates, insulation strips, insulating discs, insulating nipples, pipe insulting rods and elbows, insulating washers and sleeves; non-metal hoses and flexible pipes, namely, plastic composite pipes, multilayer pipe for complex installation tasks in heating, air conditioning and plumbing installations, pipes with heat-insulation from LDPE foam, plastic composite pipe for natural gas; non-metal junctions for pipes; semi-processed foams in the nature of filtering materials in the water filter industry; insulating felt for use in the fields of thermal and fire protection and sound control; pipe gaskets; non-metal pipe muffs for use with plastic pipes; non-metal gaskets, namely, water-tight rings for plumbing pipes; non-metal weather strips for buildings; electric, thermal and acoustic insulators; slag wool for use as a building insulator for retaining heat; building and pipe insulation, namely, non-metal studded panels for insulating purposes; reinforcing materials of plastic for pipes, reinforcing materials of fibre-reinforced plastic for pipes, non-metal pipe muffs, for use with plastic pipes; capsules for pipes for heating, steam, generating, cooking, refrigerating, ventilating, air conditioning and for

sanitary installations and remote heating and remote refrigerating technical installations; non-metal branching pipes and junctions; flexible plumbing pipes and pipe connectors of plastics; Plastic composite tubes, capillary tubes of plastic, protective tube.

### Class 19

(5) Building materials not of metal, namely, wall, hardwood, decking, wood, and particle boards, cove bases, not of metal; plaster fiberboards and plastic boards for use in construction; drain pipes not of metal, water-pipe valves not of metal or plastic; building materials as elements for building manholes in the nature of concrete drainage structures, namely, storm manholes; non-metal manhole covers, non-metal penstock pipes.
